**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 24-26 are rejected under 35 U.S.C. 102(b) as being anticipated by Cimber (3,675,639). With respect to claim 24, Cimber discloses, in figures 2-4, an elongated inserter that is usable for a fastener as claimed, where the inserter (43) has a carrier portion (46) with an open side and a sharpened edge (45). With respect to claims 25 and 26, Cimber discloses, in figures 2-4 and in col. 4, lines 24-29, an installation tool with an elongated rigid tube (72), a carrier portion (43) with a chamber having an open side, a closed side, and a proximal wall; and a sharpened edge (45), and control means (42) for moving the carrier portion.

***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Moss (5,085,661 and 5,470,337), Makower et al. (5,380,290), and DeLeo (4,144,876) teach installation tools usable with fasteners as claimed.
